EDUCATION

UofSC, Columbia— Undergraduate *Bachelors*

Currently Studying computer science as a sophomore.

. **York Technical college -** Undergraduate diploma

Completed Mechatronics degree.

PROJECTS

Weather apps

Made a weather app in my free time it lets you type in a location and give out the temperature if its cloudy, rainy or sunny and the humidity.

Mario like video game

Made a Mario like video game that has jump mechanics and collect gold for exchanging items mini monsters to jump on etc.

Experiences

In my senior year, I volunteered to create an online platform for my high school's robotics club. The project began when the team realized they needed a better way to track upcoming competitions, manage practice schedules, and organize equipment inventories. Over the course of two months, I designed and developed a custom web application using HTML, CSS, and JavaScript on the front end.

SKILLS

Coding: Java , HTML, Python, C++, C,
instrument : Professional guitarist and Carnatic singer

INTERESTS

I watch a lot of coding videos in my free time. Play the guitar, and a lot of video games.

LANGUAGES

Tamil and English
